AUTOPSY REPORT

KOZLUK GRAVE SITE

CASE NO: KK3 386BP**AUTOPSY DATE:** 09.09.99
MORTUARY: Visoko**SUMMARY:**

A left ankle and foot still in a shoe, with the lower end of the shin bone also present. There was still some soft tissue surviving but the remains were otherwise skeletonized.

From anthropology examination the foot was from an adult, but it was not possible to say whether male or female or to determine anything further.

The lower end of the shin bone was fractured but as the rest of the bone was missing it was difficult to know what caused this or whether it occurred before or after death.

There were no other findings and from this examination it is not possible to determine the cause of death in this person.

CAUSE OF DEATH:

It is my determination that the cause of death in case number **KK3 386BP** was:
Unascertained

This formal report is based upon the autopsy report that I prepared at the time of my examination. Both reports truly and accurately reflect my findings.

Signed:.....

Dr John Clark MB ChB FRCPath Dip FM
