

United Nations International Criminal Tribunal for
the former Yugoslavia

AUTOPSY REPORT

KOZLUK GRAVE SITE

CASE NO: KK3 449BP

AUTOPSY DATE: 05.08.99

MORTUARY: Visoko

SUMMARY:

These were only the lower limbs of a body with fractures of the right femur, right tibia, and right fibula

From the anthropological data, the person was adult and measured 176.7 +/- 7.7 cm. in height, but the sex was undeterminate.

The autopsy revealed some fractures of the limb bones but it seems probable that these injuries were sustained in the post mortem interval due to injuring of the body.

CAUSE OF DEATH:

It is my determination that the cause of death in case number **KK3 449BP** was:

Unascertained

This formal report is based upon the autopsy report that I prepared at the time of my examination. Both reports truly and accurately reflect my findings.

Signed:.....

pp Dr. Enrico Manfredi, Medico Chirurgo, Specialista in Medicina Legale
