## AUTOPSY REPORT

KOZLUK GRAVE SITE

**CASE NO: KK3 243B**

**AUTOPSY DATE: 11.08.99**  
**MORTUARY: Visoko**

### SUMMARY:

These were partially skeletonized remains of a body almost complete. The skull was shattered.

From the anthropological data the person was male, aged 31-71 years old, and measured 178.5 +/- 7.7 cm in height.

The autopsy revealed evidence of him being shot twice. A bullet would appear to have passed across the cranial vault, fracturing it. A second bullet had penetrated the right upper chest, fracturing the right scapula and the 6<sup>th</sup> rib.

The man died from the injuries he received

### CAUSE OF DEATH:

It is my determination that the cause of death in case number **KK3 243B** was:  
**Gunshot wounds of head and trunk**

This formal report is based upon the autopsy report that I prepared at the time of my examination. Both reports truly and accurately reflect my findings.

Signed:.....

pp Dr. Enrico Manfredi, Medico Chirurgo, Specialista in Medicina Legale
