the former Yugoslavia

AUTOPSY REPORT

KOZLUK GRAVE SITE

CASE NO: KK2 054BP

AUTOPSY DATE: 09.09.99

MORTUARY: Visoko

SUMMARY:

The bones of a left arm plus the right half of a pelvis, which may or may not have been from the same person.

As established from anthropology data, the person was male and aged between 17 and 57, but there were no other identifying features.

Both the upper arm bone and one of the bones of the forearm were fractured, though it was not possible to say whether these occurred before or after death. There were no other significant findings.

From this examination, it is not possible to determine the cause of death in this person.

CAUSE OF DEATH:

It is my determination that the cause of death in case number **KK3 054BP** was:
Unascertained

This formal report is based upon the autopsy report that I prepared at the time of my examination. Both reports truly and accurately reflect my findings.

Signed:.....*John Clark*.....

Dr John Clark MB ChB FRCPath Dip FM
