AUTOPSY REPORT

KOZLUK GRAVE SITE

CASE NO: KK3 466BP

AUTOPSY DATE: 15.09.99

MORTUARY: Visoko

SUMMARY:

The upper part of a skull together with the topmost bone in the spine.

From anthropology examination the bones were from a male adult, but it was not possible to determine anything further.

The skull was clearly fractured but this may well have occurred after death from crushing or moving of the body. Certainly there were no specific features in the portion remaining, such as gunshot defects.

There were no other findings and from this examination it is not possible to determine the cause of death in this person

CAUSE OF DEATH:

It is my determination that the cause of death in case number **KK3 466BP** was:
Unascertained

This formal report is based upon the autopsy report that I prepared at the time of my examination. Both reports truly and accurately reflect my findings.
