AUTOPSY REPORT

GLOGOVA GRAVE SITE

CASE NO: GL05 046BP

AUTOPSY DATE: 14.10.99
MORTUARY: Visoko

SUMMARY:

A right lower leg and foot, with no soft tissues surviving.

From anthropology examination the remains were from an adult over the age of 17, but it was not possible to say whether male or female or to determine anything further.

Both of the leg bones were fractured and the upper ends missing but most likely this was damage caused after death in moving or otherwise disposing of the body.

There were no other significant findings and from this examination it is not possible to determine the cause of death in this person.

CAUSE OF DEATH:

It is my determination that the cause of death in case number **GL05 046BP** was:
Unascertained

This formal report is based upon the autopsy report that I prepared at the time of my examination. Both reports truly and accurately reflect my findings.

Signed:.....

Dr John Clark MB ChB FRCPath Dip FM

Date: 16.10.99
