AUTOPSY REPORT

GLOGOVA GRAVE SITE

CASE NO: GL05 050BP

AUTOPSY DATE: 14.10.99

MORTUARY: Visoko

SUMMARY:

A left lower leg and foot, completely skeletonized.

From anthropology examination the remains were from an adult over the age of 17 but it was not possible to say whether male or female. He or she measured from 163 to 179 cms in height.

The shin bone showed clear evidence of burning of one surface, this almost certainly occurring after death.

There were no other injuries or significant findings, and from this examination it is not possible to determine the cause of death in this person.

CAUSE OF DEATH:

It is my determination that the cause of death in case number **GL05 050BP** was:
Unascertained

This formal report is based upon the autopsy report that I prepared at the time of my examination. Both reports truly and accurately reflect my findings.

Signed:.....

Dr John Clark MB ChB FRCPath Dip FM

Date: 16.10.99
