AUTOPSY REPORT

GLOGOVA GRAVE SITE

CASE NO: GL05 136BP

AUTOPSY DATE: 25.10.99
MORTUARY: Visoko

SUMMARY:

The bones of a right arm, with no soft tissue attached.

From anthropology examination they were from an adult person over the age of 17, but it was not possible to be any more precise as regards age or to say whether they were male or female.

One of the forearm bones was broken and part of it missing, but most likely this occurred after death from crushing or moving of the body. The only other finding was evidence of burning of the clothing.

From this examination it is not possible to determine the cause of death in this person.

CAUSE OF DEATH:

It is my determination that the cause of death in case number **GL05 136BP** was:
Unascertained

This formal report is based upon the autopsy report that I prepared at the time of my examination. Both reports truly and accurately reflect my findings.

Signed:.....

Dr John Clark MB ChB FRCPATH Dip FM

Date: 27.10.99
